Light Your Family Nativity Instructions

Print the nativity and the family service cards. Cut and laminate them as desired. Place cards all together in a jar or envelope. Use tape or other adhesive for the back of the nativity figures. Family members may pick out a service card to do and when they finish the service they can put up one nativity piece. Continue until all nativity pieces are up and it is complete. You can do this activity in one week or use this as a Christmas advent countdown calendar. It's very versatile! #LightTheWorld
